Subject Index to Volume 20

A

Australia, recovery policies of 1930s Great Depression, 361
Austria, biomass energy use to reduce climate change, 513

B

Biomass energy use, climate change reduction, 513

C

Capital mobility, historical perspective, 141
China
  CO_2 emission limits, macroeconomic effects, 213
  economic transition, 483
Climate policy, biomass energy use, 513
CO_2 emission limits, macroeconomic effects, 213
CO_2 taxation, biomass energy use, 513
Codependence, empirical analysis, 403
Cointegration test, electoral and partisan cycle regularities, 119
Commodity prices
  inflation indicators, 201
  primary, macroeconomic/monetary variables, 767
Computable general equilibrium models
  biomass energy use to reduce climate change, 513
  CO_2 emission limits, 213
  economic transition in China, 483
  greenhouse gas economics, 537
  open economy, 677
  recovery policies of 1930s Depression in Australia, 361
  short-run consequences of trade liberalization, 305
  structural adjustment program in Lesotho, 791
Consumer prices, inflation indicators, 201
Convergence, empirical tests, 403
Corporate income tax rate, investment-promoting policies in open economy, 715
Corporate response, microsimulation, 55
Credibility, Federal Reserve, 33
Crow, John, price stability in Canada, 335

D

Depression, recovery policies of Australia, 361
Development aid, impact studies, 77
Dummy variables, Presidential election outcomes, 251
Dutch disease model, general equilibrium effects of aid inflows, 77
Dynamic general equilibrium model, open economy, 677

E

Economic policies, foreign aid effects, 669
Economic reforms, Australia, 361
Economic transition, China, 483
Elections, presidential, modeling outcomes, 251
Electoral cycles, regularities, 119
Emission abatement policies, trade liberalization, 11
Environmental policy, greenhouse gas economics, 537
ERM, non-linear dependence in exchange rate returns, 581
European countries, codependence and convergence, 403
European Monetary Union (EMU), progress evaluation, 741
Exchange rate returns, non-linear dependence, 581
Exchange rate target zones, viability, 603
Exchange rates, foreign direct investment effects, 393

F

Federal Reserve, credibility, 33
Feldstein-Horioka savings retention measure, capital mobility, 141

Firm behavior, microsimulation, 55
Forecasting models, economic determinants of income maintenance programs, 461
Foreign aid, economic policies choices, 669
Foreign direct investment
  exchange rates effects, 393
  impact on trade surplus, 427
Foreign trade, regulation, 305
Fuzzy analysis, European Monetary Union (EMU) progress, 741

G

General equilibrium framework, aid flows and Dutch Disease models, 77
Global pollution, greenhouse gas economics, 537
Government size, product diversity and international trade effects, 1
Great Depression, recovery policies of Australia, 361
Greece, electoral and partisan cycle regularities, 119
Greenhouse gases, regulations, 537

H

Heteroskedasticity, exchange rate returns, 581
Historical data, capital mobility, 141
Housing, multi-unit, limited entity cooperatives vs. public housing, 649
Humanitarian aid, economic policies choices, 669

I

Immigration decision model, U.S. policy, 621
Income maintenance programs, economic determinants, 461
Industrial transformation, open economy, 111
Inflation, price stability, 335
Inflation indicators, leading, 201
Instruments, electoral and partisan cycle regularities, 119
International trade, effects on government size, 1
Investment, links with national savings, 141
Investment-promoting policies, international interactions, 715
Investment subsidies, microsimulation of corporate response, 55

J

Japan, foreign direct investment impact on trade surplus, 427

L

Labor market outcomes, immigration decision model, 621
LDC failure, institutional view, 631
Leptokurtosis, exchange rate returns, 581
Lesotho, structural adjustment, 791
Liberalization, trade, pollution abatement, 11
Limited entity cooperatives, public housing alternatives, 649

M

Maastricht criteria, European Monetary Union (EMU) progress evaluation, 741
Macroeconomic/monetary variables, primary commodity prices, 767
Market responses, transitional economy, 483
Microsimulation, industrial corporation response to investment subsidies, 55
Migration decision model, U.S. policy, 621
Military spending cuts, worldwide, impact on developing countries, 261
Multi-unit housing, limited entity cooperatives vs. public housing, 649
MULTIMOD, worldwide military spending cuts, impact on developing countries, 261
Mundell-Fleming model, exchange rate target zones viability, 603

N

Non-linear dependence, exchange rate returns, 581

O

Open economy
  dynamic general equilibrium model, 667
  industrial transformation, 111
  investment-promoting policies, 175

P

Pakistan, general equilibrium framework, 77
Partisan cycles, regularities, 119
Patents, product vs. process, 193

Policy model, urban waste management, 45
Pollution abatement, trade liberalization, 11
Presidential elections, modeling outcomes, 251
Price stability, Canada, 335
Primary commodity prices, macroeconomic/monetary shocks impact, 767
Process patents, product vs., 193
Product diversity, effects on government size, 1
Product patents, process vs., 193
Public finance, tax and spend vs. spend and tax, 163
Public housing, alternatives, 649
Public policy, immigration decision model, 621

R

Regularities, electoral and partisan cycle, 119
Rent seeking, LDCs effects, 631

S

Savings retention, capital mobility, 141
Sleeping patents, theoretical model, 193
Spend and tax, tax and spend vs., 163
Spending cuts, worldwide military, impact on developing countries, 261
STAR model, exchange rate returns, 581
Stochastic output shocks, exchange rate target zones viability, 603
Structural adjustment program, Lesotho, 791
Structural VAR, tax and spend vs. spend and tax, 163
Student's *t* distribution, exchange rate returns, 581

T

Target zones, viability of exchange rate, 603
Targets, electoral and partisan cycle regularities, 119
Tariff reform, dynamic general equilibrium model of open economy, 677
Tax and spend, spend and tax vs., 163
Tax credits, investment-promoting policies in open economy, 715
Terms-of-trade shocks, dynamic general equilibrium model of open economy, 677
Time series analysis, tax and spend vs. spend and tax, 163
Trade, international, effects on government size, 1
Trade liberalization
  pollution abatement, 11
  short-run consequences, 305
Trade-related intellectual property protection (TRIPS), 193
Trade surplus, foreign direct investment impact, 427
Transformation, open economy and industrial, 111

U

Urban waste, policy for disposal management, 45

V

Variables, dummy, Presidential election outcomes, 251

W

Waste disposal, urban policy for management, 45
Welfare effects, worldwide military spending cuts, 261
Welfare participation, economic determinants of income maintenance programs, 461

Z

Zimbabwe, short-run consequences of trade liberalization, 305
